

### Seniors will learn to:

Evaluate the similarities  
and differences between  
OTC and Prescription  
Medicines

Discuss how to  
responsibly dose  
and store medicine

Understand why  
misusing OTC  
medicines can be  
harmful

The OTC Medicine Safety program provides important foundational information to help equip our seniors with knowledge about OTC medicine safety and practices.

**United for Prevention  
in Passaic County**  
Sponsored by NJDMHAS

### Children will learn to:

Define over-the-counter medicines and prescription medicines

Learn how to responsibly use OTC medicine

Understand the similarities and differences between OTC medicines and prescription medicines

The OTC Medicine Safety program is a free, evidence-based, comprehensive Common Core-ready educational program on the safe use of over-the-counter (OTC) medicines, with a rich online hub at [scholastic.com/otcmedsafety](http://scholastic.com/otcmedsafety). This program meets standards for grades 5-6.
